

AIDS

Mickey Factz

And tonight is my last night please don't cry
Just remember the good times of my life
Listen to the mike bro, maestro
Mouse is a pyro, celebrate life yo
Psycho for a nice yo
Mug club, paradise
Give me a drink and a pair of dice
And a hot girl that will rock my world
Before I go to the after life
I ain't there yet, don't care if I got a year left
Just care that there's more beer left
That I can take to the head like a head neck
I've been everywhere on a [?] jet
I just need a girl I can stare at
Put my hands at where her rear at
You hear that? I don't fear death
I scare death, so let's dance

And tonight is my last night please don't cry
Just remember the good times of my life
Remember my life, my life, remember my life
I'm gonna celebrate, celebrate, whoa, celebrate
Celebrate, celebrate, whoa, celebrate

And they just start it for me, someone's daughter's on
me
Gave me a magic marker and asking you start drawing on
me
No lights in the spot, but Decepticons, no autobots
Time to boast for a photo op, say cheese, this is just
what I need
My scene is just what I mean
I'm free, is just what I see
Living life, no regrets, but if I could turn no to yes
And turn water to wine, turn broke to checks
Turn over my soul, eternal rest
Wait my turn don't rush for me
I'm right where I want to be, where you at now?

And tonight is my last night please don't cry
Enjoy the night tonight, enjoy the night tonight
Just remember the good times of my life
Remember my life, my life, remember my life
I'm gonna celebrate, celebrate, whoa, celebrate
Celebrate, celebrate, whoa, celebrate

Who wants to be mine tonight? I'm trying to ride
tonight
You know I can't drive tonight, I had too much wine
tonight
That don't mean I'm a die tonight
But if I do, don't cry tonight
Remember me, everyday after I die, celebrate

It's ok, it's alright, tonight s the night
Don't worry about tomorrow
We may never see a tomorrow

Let's dance till we see the sun shine

And tonight is my last night please don't cry
Enjoy the night tonight, enjoy the night tonight
Just remember the good times of my life
Remember my life, my life, remember my life
I'm gonna celebrate, celebrate, whoa, celebrate
Celebrate, celebrate, whoa, celebrate.
