

# Let Me Rescue You

Mickey Gilley

Well, we've been friends for so long  
I can tell when something is wrong  
'Cause there are tears in your eyes  
It's no surprise he's gone

If you drowning in lust, all that seen  
Just reach out your hand to me

Let me rescue you (Rescue you)  
From all your hurting  
You can be certain, help is on the way  
When you need a friend you can rely on  
A shoulder to cry on any night or day  
That would be my dream come true  
Let me rescue you

I'm still binding my time  
Hoping one day you'll be mine  
Now the day has arrived  
Even though a blind man can read the sign

That your heart's been broken in two  
Well, help me put it back together just as good as new

Let me rescue you

Well, don't you give up the fate  
It's never too late for love  
If he want in need, how I'll pray to the stars above

Let me rescue you  
From all your hurting  
You can be certain, help is on the way  
When you need a friend you can rely on  
Shoulder to cry on any night or day  
That would be my dream come true  
Let me rescue you  
Let me rescue you  
Coming to you, honey  
Let me rescue you  
Let me rescue you  
Let me rescue you  
From all your hurting  
(Let me rescue you)
