

# Higher

Mickey Guyton

When I'm down  
When I'm low  
When my wings feel broke  
When the stars feel too far to touch  
You lift me up

You just take me higher in love  
You just take me higher in love  
Everytime I feel the power of your touch  
You just take me higher in love

You just take me  
Higher  
You just take me  
Higher

When I'm lost in the dark  
I just look for your spark  
You light me up like the Fourth of July  
Like a firework in the sky

You just take me higher in love  
You just take me higher in love  
Everytime I feel the power of your touch  
You just take me higher in love

You just take me  
Higher  
You just take me  
Higher

Higher than a prayer  
Higher than the clouds  
So high that seeing Heaven  
Means that I'm looking down

Higher than the rain  
Higher than the sun  
So high that when I'm falling  
I'm still going up

You just take me higher in love  
You just take me higher in love  
Everytime I feel the power of your touch  
You just take me higher in love

You just take me  
Higher  
You just take me  
Higher

You just take me  
Higher  
You just take me  
Higher
