# In Between

**Mickey Guyton**

In between jobs, in between days
In the middle of the rush of everything
Pushing forward, looking back
Babe, I like right where we're at

We're not rich, not poor
Got bills knocking at the door
We got our problems, our rock bottoms
And tomorrow's on its way

Baby I just wanna be
Tangled up between the sheets
On the edge of your kiss
Right now, time don't exist

So let's pour another glass of wine
Slow it down 'cause baby I
Don't want this to end
I just wanna be in the in between

Let's press pause and pull me close
Live a little in limbo
Of the chaos and the crazy
Make it a night we won't forget

Baby I just wanna be
Tangled up between the sheets
On the edge of your kiss
Right now, time don't exist

So let's pour another glass of wine
Slow it down 'cause baby I
Don't want this to end
I just wanna be in the in between
The in between

Someday we'll be old and gray
And the days will be years gone away
And you know then
We'll be wishing for when

Baby I just wanna be
Tangled up between the sheets
On the edge of your kiss
Right now, time don't exist

So let's pour another glass of wine
Slow it down 'cause baby I
Don't want this to end
I just wanna be in the in between
The in between
