

Make It Me

Mickey Guyton

Make it me
Make it me

If you're looking for a green light
Boy, you should know that I'm sitting on go tonight
Don't make me wait, come take my sweet time
If that's how you wanna play it
I'll come right out and say it, baby

If you wanna dance with somebody, it's your song
If you wanna start a fire, let me turn it on
When the party's ended, ooh, you're kissing in the street
If you wanna spend the night with somebody
Make it me
Oh, make it me

I've already made the first move
Where it's gonna go, boy, that's up to you
I'll bet we go together
Just like that Jack and Coke you're drinking
If you're thinking what I'm thinking, lets go see
'Cause

If you wanna dance with somebody, it's your song
If you wanna start a fire, let me turn it on
When the party's ended, ooh, you're kissing in the street
If you wanna spend the night with somebody
Make it me
Oh, make it me
Yeah

If you wanna dance with somebody

Oh, if you wanna dance with somebody, it's your song
If you wanna start a fire, let me turn it on
When the party's ended, ooh, you're kissing in the street
You was kissing in the street
If you wanna spend the night with somebody
Make it me
Oh, make it me
Make it me

If you want somebody
If you want somebody
Make it me
