

## Remember Her Name

Mickey Guyton

Birds on a wire all fly away  
Nobody wanna stand in a hurricane  
When everyone else walks away  
She'll still remain

Where did you lose the girl with no fear  
Oh she never left  
Take a good look she's right in the mirror  
Don't let yourself forget

Remember the fire  
Remember her face  
She felt the storm and danced out in the pouring rain  
Remember her laughing  
Through all the pain  
Remember the girl that didn't let anything get in her way  
Remember her name  
Remember her name

Don't let go of that wide eyed innocence  
Let that wild child run on the wind  
Keep that shine, that lights up the room  
Hold onto it

Remember the fire  
Remember her face  
She felt the storm and danced out in the pouring rain  
Remember her laughing  
Through all the pain  
Remember the girl that didn't let anything get in her way  
Remember her name
