

Strangers

Microwave

I used to see myself standing in the background
I woke up today and everybody felt like strangers

I'm ready to leave
I'm ready to leave
I'm ready to leave
I'm ready to leave

I know where I was when the light went out
Everyone I know, I treat them all like strangers

I'm ready to leave
I'm ready to leave
I'm ready to leave
I'm ready to leave
