Just give me the look and the price I'll pay it (All I need is word)

Just say the word cause I won't say it (All I need is word)

Make me believe that you need me inside (All I need is word)

Cause out with the old and in with the new life (All I need is word)

I guess it's time you win I gave you the water to drown me in

You better stay away she's a Police Man

You better stay away she's a Police Man

She's buried away and she ain't no friend

Just give me today, I'll regret tomorrow, (All I need is road)

Just give me direction that I can follow, (All I need is road)

Tell me again that you don't want me to go, (All I need is road)

Cause they don't you if you don't know (All I need is road)

You better stay away she's a Police Man

You better stay away she's a police man

She's buried away and she ain't no friend

So you better stay away she's a Police Man

I guess it's time to swim, I gave you the water to drown me in
