

Bend

Middle Kids

The line is very fine
Between free and paralysed
And I'm riding it all the time
My breath is my life
But my mind's a parasite
And it's eating me alive

I am one bend away from a break
I am one step away from the precipice of crazy
I am holding all the pieces in place
But maybe you've got to break me to see what I'm made of

I am one bend away
I am one step a way
I am holding all the pieces in place
But maybe you've got to break me to see what I'm made of

I sip from the cup
But it's never enough
I think the well has all dried up
I think the world is all fucked up

Because I am one bend away from a break
I am one step away from the precipice of crazy
I am holding all the pieces in place
But maybe you've got to break me to see what I'm made of

I am one bend away
I am one step a way
I am holding all the pieces in place
But maybe you've got to break me to see what I'm made of

Maybe you've got to break me to see what I'm made of
Maybe you've got to break me to see what I'm made of
Maybe you've got to break me to see what I'm made of
Maybe you've got to break me to see what I'm made of
