

See the Sky

Middle Of The Road

If I could find out where I'm goin'
Try to catch a glimpse of guiding light
From a smilin' person kindly showin'
My direction, wrong from right

Ferris wheels, roundabouts
Hear the people laughin'
Dodgin' cars, joke cigar
Colored lights are sparklin'

See the sky? What'd ya buy?
Truly find my answer
What'd ya buy? See the sky?
But of course, I can, sir
Come everyone to the fair
It's great fun to be there

Keep on searchin' for an answer
With the multicolored light
People swirlin' all around me
On their showground powered cars

Roller coasters, fairy queens
Hear the people singin'
Rock 'n' roll, Detroit soul
See the record spinnin'
See the sky? What'd ya buy?
Truly find my answer
What'd ya buy? See the sky?
But of course, I can, sir

See the sky? What'd ya buy?
Truly find my answer
What'd ya buy? See the sky?
But of course, I can, sir

Come everyone to the fair (See the sky? What'd ya buy?)
It's great fun to be there (See the sky? What'd ya buy?)
Come everyone to the fair (See the sky? What'd ya buy?)
It's great fun to be there
