

Words

Midge Ure

Words that touch
And words that heal
Words you know were written 'bout you
That say everything, know everything you feel

Words that save
And words you fear
Words that scream for every small demand
And whisper every lullaby you hear
To tell you stories
And see them signed
To shake your soul foundations, rock you gently
Suck you in and blow your tiny mind

And words of wisdom
And words of fools
Words of anger, desperation, revolution
Words as weapons, words as tools

Open up and let them reach you
Open up and let them teach you
Feed your mind, your heart's desire
Welcome to a world of wonder

With words that touch
Touch
Touch
Touch

Open up and let them...

With words that touch

Touch
Touch
Touch
Touch
Touch.
