

# Barely Blue

Midland

And I'm the talk of the town  
And I've been making the rounds  
And the rounds have been making me  
Feel better than I thought I'd be

All my friends are surprised  
I'm getting on with my life  
I can't say I never cared  
But I think I'm nearly there because

I'm barely blue without you, baby, I'm alright  
Thought it would kill me when you walked out the door  
I'm alright  
I never thought that I'd get up off the floor  
But I've had a few to get me over your goodbye  
I'm hanging in there, hanging out here tonight  
I'm alright  
Under these neon lights, I'm barely blue

And I've been hanging out late  
Slowly chipping away at the heart of this heartbreak  
Save your sad song for another day 'cause

I'm barely blue without you, baby, I'm alright  
Thought it would kill me when you walked out the door  
I'm alright  
I never thought that I'd get up off the floor  
And I've had a few to get me over your goodbye  
I'm hanging in there, hanging out here tonight  
I'm alright  
Under these neon lights, I'm barely blue

I know you're with someone else  
I'll have one more, and then I'll tell myself that

I'm barely blue without you, baby, I'm alright  
Thought it would kill me when you walked out the door  
I'm alright  
I never thought that I'd get up off the floor  
But I've had a few to get me over your goodbye  
I'm hanging in there, hanging out here tonight  
I'm alright  
Under these neon lights  
And I'm alright  
I'm barely blue
