

Gettin' the Feel

Midland

At night when I look at the sky
Where the stars used to be
Before they walked out on me
Left me here in the dark

Girl I used to live the high life
Days are passing me by
Like a duel in the sky
That howls like the winds

But I'm gettin' the feel
For livin' again
But I'm getting' the feel
For livin' again

Now the sky has turned red,
How alone can I be?
There's no sunsets for me
From this worn out old barstool

Once my life was like winning streak
That went on too long
Awe then one day it's gone
And where all your friends

But I'm getting' the feel
For livin' again
But I'm getting' the feel
For livin' again

Once my life was like winning
Strike the wind on too long
All them one day is gone
Where are you friends

But I'm gettin' the feel
For livin' again
But I'm gettin' the feel
For livin' again
But I'm gettin' the feel
For livin' again
