

I Love You, Goodbye

Midland

We could stay up all night trying to right all the wrongs
But let's let this moment together fade out like a song
Hearts come uncrossed, I guess somewhere we lost what we had
Take the good with the bad

Baby, we know
Sometimes this is just the way that love goes
We could drag it out but when it's over
Point it toward the sunset and ride
No crying, no lies
Babe, I love you, goodbye

Maybe someday I might see you with some other guy
Our eyes might meet and we'll smile but I'll just walk on by
Oh, when sometimes a spark's just a spark that don't turn to a
flame
And tears are just rain

Baby, we know
Sometimes this is just the way that love goes
We could drag it out but when it's over
Point it toward the sunset and ride
No crying, no lies
Babe, I love you, goodbye

Hearts come uncrossed
I guess somewhere we lost what we had
But darling please don't be sad

Baby, we know
Sometimes this is just the way that love goes
We could drag it out but when it's over
Point it toward the sunset and ride
No crying, no lies
Babe, I love you, goodbye
Babe, I love you, goodbye
Babe, I love you, goodbye
