

## Lucky Sometimes

Midland

Got a string of green lights on the way to work  
Got a hell of a deal on a field of dirt  
Been dry for a spell finally got a little rain  
Got a midnight call from my old flame

And I'm gonna ride this high

Don't you just get lucky sometimes?  
Sometimes you just get lucky  
And you don't ask why  
It's like falling up to heaven  
And coming up a seven  
Every time you roll the dice  
You know you just get lucky, get lucky, get lucky sometimes

Put a hundred on the game and hit the parlay  
This Saturday morning's just going my way  
Now the Cracker Barrel waitress been giving me eyes  
Think it's gonna be good Saturday night

And I couldn't lose if I tried

Don't you just get lucky sometimes?  
Sometimes you just get lucky  
And you don't ask why  
It's like falling up to heaven  
And coming up a seven  
Every time you roll the dice  
You know you just get lucky, get lucky, get lucky sometimes

Who knows when it's done  
But I'm on one hell of a run

You know you just get lucky sometimes  
Sometimes you just get lucky  
And you don't ask why  
It's like falling up to heaven  
And coming up a seven  
Every time you roll the dice  
You know you just get lucky, get lucky sometimes  
Get lucky sometimes
