

Painting by Matisse

Midnight Choir

She roams within me like a painting by Matisse
Crystal clear with every color at ease
And she gives every angle a whole new light
The way I'm falling like a river from a mountain free
The way I'm falling like a river from a mountain free

She roams within me like a painting by Matisse

Crystal clear with every color at ease
And she gives every angle a whole new light

The way I'm falling like a river from a mountain free
The way I'm falling like a river from a mountain free

She roams within me like a painting by Matisse
