## Midnight Choir

I know how hard you dream  
I know how hard it seems  
I know where the blow hurts  
Yeah, I know where it hurts  
Don't you know we've been down this road before?  
Don't you know the sky won't leave you lonely?  
It cries  
Don't you think it'll heal?  
Don't you know that you steal?  
Don't you know that I'm liar?  
With a pain in my shoe  
Don't you know we've been down this road before?  
Don't you know the sky won't leave you lonely?  
It cries

Don't you know the clouds won't break?  
You could start with no hate  
I've seen a coward and I've seen a king  
Sometimes they can be both things
