

Deep Blue Lines

Midnight Juggernauts

So bizarre
These battle scars
To know how I got away
Survive for another day

So long to me
Whats wrong with me
Into the dark again
How can this start again

New day comes alive
Deep blue lines
Cut through the sky

New day shall arise
Deep blue lines
Cut through the sky

Slow embrace, and flows with grace
Something you said to me
Feeling you next to me

I'll tease you in
I'll breathe you in
You fire it up again
A cloud to the top again

New day comes alive
Deep blue lines
Cut through the sky

New day shall arise
Deep blue lines
Cut through the sky
