Midnight Juggernauts

Those arms held us to your heart
Lifted us above to reach the stars
Awakened fascination from the start
Never let that wonder fall apart

Those hands kept us warm and well
Were there to hold us stable if we fell
Line we left behind would never tell
Songs lived on beyond their final bell

Shine on kid shine on
Shine on kid shine on
Fight on kid fight on
From here to eternity
You'll soar through eternity

Shine on kid shine on
Shine on kid shine on
Fight on kid fight on
From here to eternity
You'll soar through eternity

Those eyes watched their final dawn
We knew this end would come before too long
Dreams we weaved indeed will carry on
Echo out beyond us when we're gone

Shine on kid shine on
Shine on kid shine on
Fight on kid fight on
From here to eternity

You'll soar through eternity

Shine on kid shine on

Shine on kid shine on

Fight on kid fight on

From here to eternity

You'll soar through eternity
