

## Systematic

## Midnight Juggernauts

We're holding on, to fantasies  
Of places that, we've never been before  
Don't fade away

I stay awake, every night  
Cause all these dreams, tearing me apart  
Please fade away

I see the fire in your eyes  
I'm mesmerized  
I can't break your spell

Reminder of, reality  
The facelessness, the things we've become  
Please fade away

The lessons learned, traditions kept  
Denial of, the seamless interest  
Don't fade away

I see the fire in your eyes  
I'm mesmerized  
I can't break your spell

Shut down your system
