

Virago

Midnight Juggernauts

Out with the old

In with the new

Now that the cast has past it's come for you

Moments you'll share

Chances you'll take

Now that it's drawn in you won't escape

Heads up she's just a glorified virago

She'll bat her eyes and then everybody follows

Now you're set

The leach around your neck

The more you kick against and pull away the more you choke

Heads up she's just a glorified virago

She'll flash her smile and then every zombie follows

Now you're set

The leach around your neck

The more you kick against and pull away the more you choke

Matters of time, shadows of doubt

All of this push and pull will wear you out

Over your head, straight through your heart

No matter how you try, you'll fall apart

Heads up she's just a glorified virago

She'll bat her eyes and then everybody follows

Now you're set

The leach around your neck

The more you kick against and pull away the more you choke

Heads up she's just a glorified virago

She'll flash her smile and then every zombie follows

Now you're set

The leach around your neck

The more you kick against and pull away the more you choke

Heads up she's just a glorified virago

She'll bat her eyes and then everybody follows

Now you're set

The leach around your neck

The more you kick against and pull away the more you choke

Heads up she's just a glorified virago

She'll flash her smile and then every zombie follows

Now you're set

The leach around your neck

The more you kick against and pull away...
