

## Hercules

Midnight Oil

My life is a valuable thing  
I want to keep it that way  
I won't cry

My life's such a valuable thing  
Some things don't fade away  
I don't mind  
We give the best we can give  
We won't forget we can't forgive  
Keep us radioactive free

Strike a bell in Hiroshima park  
You know that we can't see in the dark  
We try & try & we try...

Who waits for the planes to come  
When everybody's got you on the run  
South Pacific carry on

It seems to me that what we're saying  
Nobody wants to talk about  
This is no time to be wondering why

I do the best I can do  
The human jungle and the global zoo  
I'll find my way it's a very special world

Why wait for the planes to come  
When everybody's got us on the run  
South Pacific carry on

Here comes the Hercules  
Her comes the submarines  
Sinking South Pacific dreams
