

Close Encounter

Midnight Star

Starlight starbright
Will you send my wish tonight
I'm such a lonely girl
I need to find my Mister Right
It seems I've been dreaming
So I guess he passed me by
Will you remember me
Before the end of this night

See your love comes and go so freely
And it can seldom be the kind of love to last
My lucky star is taking me out tonight
And I never I'm never coming back no no

I'm so close
Close encounter
I'm so glad I finally found it with you
I want to be close to you
So close
Close encounter
I'm so glad I finally found it with you

Starlight starbright
Can I stay with you tonight
Look what you've done to me
Please don't let go won't you hold me tight
I got this feeling
Of sipping wine by candle light
Caught in my disbelief
But it's been a long long time

See your love comes and go so freely
And it can seldom be the kind of love to last
My lucky star is taking me out tonight
And I never I'm never coming back no no

I'm so close
Close encounter
I'm so glad I finally found it with you
I want to be close to you
So close
Close encounter
I'm so glad I finally found it with you

Now is the time
Contact contact
I open up my love to you
So close
I'm so glad we finally make contact tonight

I'm so close
Close encounter
I'm so glad I finally found it with you
I want to be close to you
So close
Close encounter
I'm so glad I finally found it with you

You are my sunshine
You are my joy
Come close and hold me tight
I need you here day and night
I'm telling you baby I just wanna be
So close
