

# Close to Midnight

Midnight Star

She was looking oh so fine  
Sipping all that vintage wine  
Something in her eyes told me  
I'd love to have your company

I can't imagine the way you make me feel  
I got to get to know you baby and that's for real  
And I get a rush when I'm close to you  
I can feel it baby can you feel it too

When it's close to midnight  
The clock keeps on ticking  
Got to get next to you  
Before the night is through  
Close to midnight  
The dawn sets in soon  
I've got to make my move  
To spend the night with you

I can make you feel alright  
Caressing you with all my mind  
So baby, relax and let me show you this  
Reel good loving starts with just one kiss

I can't imagine the way you make me feel  
I got to get to know you baby and that's for real  
And I get a rush when I'm close to you  
I can feel it baby can you feel it too

When it's close to midnight  
The clock keeps on ticking  
Got to get next to you  
Before the night is through  
Close to midnight  
The dawn sets in soon  
I've got to make my move  
To spend the night with you

Come and let me hold you tight  
Moonlight outside it's a lover's night  
Let's not rush the night away  
Cause when it's close to midnight  
It's close to day

When it's close to midnight  
The clock keeps on ticking  
Got to get next to you  
Before the night is through  
Close to midnight  
The dawn sets in soon  
I've got to make my move  
To spend the night with you
