

## Dead End

## Midnight Star

I often wonder how it happened  
Was it the foggy night  
That nearly blew my mind  
They said this love should be forgotten  
But like a fool I've tried  
My best to make it right  
I can see so clearly right now  
Every tear I cry  
You tell another lie  
It seems I've taken bad direction  
But now I see the sign  
No place to turn around

It's a dead end  
End of the road  
I had enough I got to let you go  
Dead end  
End of the road  
I'm packing up cause I can't take no more

I just keep running round in circles  
Sometimes I can't decide, maybe I'm running hot  
Cause there's no road I've haven't taken  
Down highway 99  
You go to throw this love  
If you believe I'm coming right back  
Take it off your mind  
Cause I ain't got the time  
I'm just a woman in love and baby  
Why must you be so blind  
We reached the borderline

It's a dead end  
End of the road  
I had enough I got to let you go  
Dead end  
End of the road  
I'm packing up cause I can't take no more

(Outside this)  
(There's only one way out)

Hello we ended at the end of the road  
I'm setting up my mind already ready to go  
I never claimed to be naive  
But before I knew it had happened to me  
I've been your lover  
I can't recover  
I'm gonna show you that I'm like no other  
Cause the only way out of this love affair  
Is to face the music if you dare

After I found out that you were cheating  
I thought that I'd go crazy  
Over and over you said you need me  
Why'd you lie to me baby  
Now that the pain and the hurt are over

I'm on the freeway  
Sorry I bothered to try to love you  
Had to learn it the hard way it's a

It's a dead end  
End of the road  
I had enough I got to let you go  
Dead end  
End of the road  
I'm packing up cause I can't take no more
