

## Hold Out

Midnight Star

When you feel like moving  
And something's in your way  
You don't have to turn around and give up  
[?] time will give up the space  
Now you might not make it the first time

Don't give up what you truly believe  
Cause you can make it if you try  
All you've got to do is

(Hold out)  
You can do it, baby  
(Hold out)  
Give it all you got  
(Hold out)  
Yeah  
(Hold out)  
Hold out, baby

Sometimes the road is not so easy  
But it can take you where you want to go  
[?] and if you hold out the a middle of a star  
Your streak will surely grow  
Just remember this (just remember)  
[?] your pain in the past  
Will be a god for you to know that you can really make it last  
All you've got to do is

(Hold out)  
Yeah  
(Hold out)  
I know that you can do it, baby  
(Hold out)  
Give it all you got  
(Hold out)  
Hold out, baby
