

# Love Song

Midnight Star

(Play another love song)

I'd never thought that love could make me happy  
I'd never thought that love could make me cry  
I'd never thought that love was an obsession  
And you came and you changed my whole life  
Everytime I hear a special love song (Ooh baby)  
It makes me wanna hold you, oh, so tight  
Every melody reminds me of you  
And tells me that this love is right

Play another love song for me  
Play it just right for me and my baby  
Play another love song for me  
Play it all night for me and my baby

I'd never thought that love could be so tender  
I'd never thought that love could feel so right  
I'd never thought that love could be a possession  
That I cherish each day of my life  
Every night I lay so close beside you  
While the music burns deep down inside  
I listen to the words sung sweet and softly  
So won't you hold me baby, hold me like this  
Hold me through the night

Play another love song for me  
Play it just right for me and my baby (Make sure that it's sweet)  
Play another love song for me (Just right for me and my man)  
Play it all night for me and my baby

I just wanna hear something soft and low  
When I'm making love keep it slow  
When I hear those love songs on my radio  
Gotta make this feeling right  
Stay don't you move too fast  
Gonna make this feeling right  
Aaah!

Play another love song for me  
Play it just right for me and my baby (All night, all night)  
Play another love song for me  
Play it all night for me and my baby

You know girl the gift of love is a beautiful thing (You know?)  
And when you're in my arms you know your love is just a kiss away  
I pick up the phone and I say Mr DJ  
Play another love song for me and my baby  
You know boy when we're all alone at night  
And I reach for your big strong arms just to hold (just to hold) me tight  
My heart's filled with love when the DJ's playing our song  
And in the midnight hour we'll be loving all night long

Play another love song for me  
Play it just right for me and my baby (Ooh darling! Please Mr DJ)  
Play another love song for me (Play it, play it, play me another love song)  
Play it all night for me and my baby (Play it, play it, play me another love

song)
