

Playmates

Midnight Star

Playmates
Out to have some fun
Yeah yeah
Playmates
Out to have some fun

Got a little plaything
Takes me for a ride
I don't have to tell him how
To keep me satisfied
When we're out together
People stop and stare
That's just how we play the game
Of truth and dare
Follow by the rules
Everybody play
All you've got to do is share
A little love today
Just can't be no cheatin'
Sure you understand
Choose a simple partner
And take him by the hand now

Playmates
Out to have some fun
Playmates
I got to have me one
Playmates
Out to have some fun
Playmates
Everybody needs one

Yeah
Yeah yeah
Too much

Kissin' huggin' lovin'
Keeps you in the game
Body language sets the pace
Ignites the flame
Play is full of passion
Always reach the top
Midnight don't you stop
We're getting hot

Gotta keep me wondering
Why the strategy is easy when you please
Show 'em how we're workin'
Everyday's
A game
Of rock and roll
We make a score

Playmates
Out to have some fun
Playmates
I got to have me one, yeah

Playmates
Out to have some fun
Playmates
Everybody needs one

Hey baby
You wanna come out and play
(Do you wanna play)
I want it I want it
Listen to me
You wanna play
You wanna play house
Playschool my body
Turn the lights out
It's your move
Don't be so slow
On your mark
Get set
Baby let's go

Playmates
Out to have some fun
Playmates
Ooh I got to have me one, yeah
Playmates
Out to have some fun
Playmates
Everybody needs one, yeah
Playmates
Out to have some fun
Ooh too much
I got to have me one, yeah
