

## Searching for Love

Midnight Star

I am searching for love, searching for love, searching for love

Sometimes in my life  
I feel that I may have  
Everything I need  
But deep down inside of me  
My heart is empty  
Girl can't you see  
Sometimes I'm low in despair  
With no one to care  
Please love don't leave me there  
I'm so all alone  
I have no one to call my own  
And when I'm weak there's no one there to make me strong

Seems you feel the way I do  
And I know just what you've been going through  
Cause I feel, I feel the same way too

I am searching for love, searching for love, searching for love  
I am searching for love, searching for love, searching for love

When I lay down at night  
It's hard for me to rest  
Cause I need someone to love  
And these tears that I cry  
Will not bring to my side  
The one I'm thinking of  
Sometimes I'm low in despair  
With no one to care  
Please love don't leave me there  
I'm so all alone  
Can't find no one to call my own  
And when I'm weak when I'm weak, you're there  
To make me strong (Well)

Seems you feel the way I do  
There's no one  
There's no one who knows what we've been through  
Together we will find (I know together)  
We will find  
Together we will find love

I am searching for love, searching for love, searching for love  
I am searching for love, searching for love, searching for love
