

# Set Me On Fire

Midnight Star

In the mist of your mind you will find  
A desire that burns just like mine  
Don't you try to hide the way you feel inside  
In the depths of your heart there's a star  
Nothing can keep us apart  
Don't you try to hide the way you feel inside

I tried  
I tried to keep it inside  
(I tried to keep it inside)  
But everywhere I go I feel you there  
(I feel your loving baby I feel your sweet loving)  
It feels worthy I want you to know  
The way I feel for you I gotta show

I could never live without you [?]  
I'll never doubt your will  
And when you start the fire big  
My man I'll take you higher

You set me on fire with your loving baby

You're my sweet desire, you're loving baby

From your head to your toe [?]  
Now the truth is starting to show  
Don't you try to hide the way you feel inside  
You got the potion [?] of emotion  
Now you're starting a love explosion  
Don't you try to hide the way you feel inside

I tried  
I tried to keep it inside  
(I tried to keep it inside)  
But everywhere I go I feel you there  
(I feel your loving baby I feel your sweet loving)  
It feels worthy I want you to know  
The way I feel for you I gotta show

I could never live without you [?]  
I'll never doubt your will  
And when you start the fire big  
My man I'll take you higher

You set me on fire with your loving baby

You're my sweet desire, you're loving baby

The house is on fire  
You set me on fire
