

Stay Here By My Side

Midnight Star

See the clouds drifting into the evening skies
Bringing the rain to hide the tears that I cry
Whenever I'm in the mood to keep you warm
You run for cover in someone else's arms

Can't you see
I'll give you all the love you'll ever need

Just stay here by my side
I'll keep you satisfied
Just stay here by my side
Baby, let me touch your body

Lay down beside me and I will cry no more (Baby don't cry)
Promise me you'll never again walk out of that door
Give me a chance and I'll be good to you
Cause no one could ever love you the way that I do

Can't you see
I'll give you all the love you'll ever need

Just stay here by my side
I'll keep you satisfied
Just stay here by my side
Baby, let me touch your body

Just stay here by my side
I'll keep you satisfied
Just stay here by my side
Baby, let me touch your body

Stay here my darling
Won't you lay down beside me

Bringing you home to me late at night
Promise my darling that you'll be right
Give me a chance I'll be good to you
Nobody loves you the way I do I do
I wanna touch and feel and make it so real to you
Oh my darling, hold me

Just stay here by my side
I'll keep you satisfied
Just stay here by my side
Baby, let me touch your body

Won't you lay down beside me
Stay here by my side
Baby, let me touch your body
