Midnight Star

I got your number  
How can we ever lose  
I've been attracted since the day that I'm with you, oh  
[?] some said I did it just for fun  
You know what you mean to me  
We'll call out in history

A victory  
A victory for you and me  
Our love, our love  
Our love is like a victory  
A victory for you and me

This love we have is right on time  
Just another blow your mind  
Sometimes they make a sold out fine (You know what I mean)  
You know that you're one of a kind

Our love is like a victory  
A victory for you and me  
Our love  
Our love is like a victory  
A victory for you and me

Just around the corner  
Lives a chance of a lifetime  
Just around the bed  
There's a chance to win

Sometimes you feel like giving up  
Someday it might be just your luck  
With you I [?] all the way  
Think it's time to celebrate

Our love is like a victory  
A victory for you and me  
Our love, our love  
A victory  
A victory for you and me

Hey! Team!  
Gonna shout about it  
Hey! Team!  
Gonna shout about it  
Hey! Team! Come on!  
Gonna shout about it

Say V-I-C-T-O-R-Y  
V-I-C-T-O-R-Y  
Say V-I-C-T-O-R-Y  
V-I-C-T-O-R-Y

I got your number  
How can we ever lose
