

Work It Out

Midnight Star

I've never been one who had lots of money
I've been told [?] is stop acting funny
You never based our love round material things
So tell me why now it seems that everything has changed

Girl I know we going through ups and downs
That's when it seems another man comes around
Talking bout what he can do but he don't really care
One day he's gonna live you and I'll be there

We can work it out
Don't matter bout the weather
Or any kind of pressure
As long as we're together
We can work it out
Don't matter what the season
Cause love is the reason
That we can, we can work it out

I know that our rent is three months overdue
I know Little Johnny needs a new pair of shoes
Been late over work since I don't know when
I'm beginning to wonder 'will they call me back again?'

Girl, I'm trying each and every day
That's why I know that the Lord will make a way
He knows how much I love you and, girl, you know it too
As long as you believe in me there's nothing we can't do

We can work it out
Don't matter bout the weather
Or any kind of pressure
As long as we're together
We can work it out
Don't matter what the season
Cause love is the reason
That we can, we can work it out

(Work work...)
Gotta...
Day and night...
(We can work it out...)

I gotta work it, baby
Things getting tough and putting me to overdrive

Girl, I'm trying each and every day
That's why I know that the Lord will make a way
He knows how much I love you and, girl, you know it too
As long as you believe in me there's nothing we can't do

We can work it out
Don't matter bout the weather
Or any kind of pressure
As long as we're together
We can work it out
Don't matter what the season

Cause love is the reason
That we can, we can work it out

(Work work...)

Gonna work this thing day and night
Gonna work it and get it right...
