

Cross Held High

Midnight

Attack the holy, make them die in pain
We'll rape your virgin whores again and again
Call forth the demons, wizards and blasphemy
We need no reason to let our spirits free with cross held high

They'll bring the blood, we'll bring the fire
We'll make them see their God is the liar
Call forth the violators, mistresses and all
We'll take the holy down and watch them fall with cross held high
