

## Escape the Grave

Midnight

The Reaper's grip is holding you tight  
Won't let you go until Hell  
Force of the blade shines a dark light  
These omens—you must heed them well  
Oh well

It's not too late  
Escape the grave  
Claw the casket and fight  
Escape the grave  
Claw the casket tonight

Fight the urge to sink in your tomb  
Never be buried alive  
Strength in evil carries me though  
Take back the need to survive  
Never be buried alive

Escape the grave

Escape the grave  
Claw the casket and fight  
Escape the grave  
Claw the casket tonight

Never sinking again  
Breaking free from these chains  
End this torture and pain  
Escape the grave
