

Evil Like A Knife

Midnight

Heathen possessed cursed from birth
Mark of the beast engraved cross will turn
No laws of light shall be obeyed
Demonic pits were summoned priests were chained

Evil... like a knife

Baptized in vomit straight from the ram
Drink all the blood that's given from your hand
Lessons of holy fully denied
A lethal dose of blasphemy were mine

Evil... like a knife

Your sole creation of wickedness
Born to burn and defile your holiness
The gates of hell are open wide
Bursting out with vengeance souls collide
