

F.O.A.L.

Midnight

Why would I want you to die?
So you could be free?
Don't want to see you in hell
Not next to me

Leave you to revel in pain
No signs of remorse
The hammer of fate hits hard
With violent force
With violent force

Fuck off and live
Fuck off, fuck off and live
Fuck off, fuck off and live

Some may say it's enough to F-O-A-D
So reek, rot, decay gloriously, gloriously

Fuck off and live, bastard

Fuck off and live
Fuck off, fuck off and live
Fuck off, fuck off and live

Don't waste your time to pray
For terminal grief
Your fortunes fester
Your spirit never released

Crawl on your knees to the grave
And hope it's the end
The reaper denies all pleas
For your soul to rest
No rest, no rest
No rest from the reaper

Fuck off and live
