

Iron Beast

Midnight

Oh, everyone abandon the city
Fear, panic, stricken with pity

Running to the sea
Every night and day
Running from the fear
Hope they'll see the day

Iron beast rules the city
Iron beast rules the city

Outrage, violence, fear in their eyes
Torment and rage, shrieks and cries

Running to the sea
Every night and day
Running from the fearful one
Hope they'll see the day

Iron beast rules the city
Iron beast rules the city

Rules the fucking city

Heavy metal rules the land
When the iron giant takes command

People will all see
Every night and day
Cranking up the metal
Is the only way

Iron beast
Iron beast, come on
Iron beast, oh yeah
Iron beast

Iron
Beast
