

Masked and Deadly

Midnight

Stained in sweat, the stench of death
Full of disease, prepare to catch
Inject the filth, pulse will race
It's your choice, the ax or mace

Masked and deadly, none will survive
In the heat of hell, you will fry
Masked and deadly

Flash of the blade, reflecting night
No reason to run, can't win this fight, no!

Masked and deadly, none will survive
In the heat of hell, you will fry
Masked and deadly

Masked and deadly, none will survive
In the heat of hell, you will fry
Masked and deadly, none will survive
In the heat of hell, you will fry, fry, fry
Masked and deadly
