

Nuclear Savior

Midnight

We must all agree to destroy
And only make dead
Nothing deserves to survive
Not even a shred
To be dearly departed

Peace we rest, nuclear savior
Gift of death, nuclear savior

Weapons fly high from above
Have become master
Grinning as they descend
Pray for disaster
Grins have turned into laughter, ha!

Peace we rest, nuclear savior
Gift of death, nuclear savior

Peace we rest, nuclear savior
Gift of death, nuclear savior
Peace we rest, nuclear savior
Gift of death, nuclear savior

Nuclear, nuclear, nuclear, nuclear
