

White Hot Fire

Midnight

Break down all the walls
It's time for violence tonight
I've seen your Lord fall
Now the rest of you are in my sight
Killing and looting and hatred
Burning and bleeding and rape
This is all that's coming
This will soon be here tonight!
Your kind is through with the power of Satan
We'll take on the world and bring back true evil
White hot fire is all that I see
White hot fire for all eternity
As midnight strikes the city's in flames
The dead they will rise to stake their claim
It's a total disaster no one will get out alive
Serve to me as your master it's the night of long knives
To serve your Heavens it gives me disgust
To burn on this earth it gives me such lust
There's no tomorrow just wait and see
Your Dog has failed you now he's ruled by me
