Pray for the safety of the workmen  
The island economics done deep in da situation  
And as the smoke is not ganja smoke second hand  
It's no joke, so don't play wit people life (mi son)  
They would a crucified they have in Jah Jah son (?)  
If its in the business interest to cut down a whole forest  
All the eco-chain connected  
Suffer the same fate in removed\*  
That's when the topsoil eroded  
And in the mountain was cut open  
Asphalt and Fitch Ina covering  
Your factories in the air releasing chemicals  
Endangering people life within competence  
Through dem think we no have representation

In the area of Lawsuit of a Billion  
Look how many people are affected, asleep at nite while resting  
in their bed's  
Chemicals dispersing over residential  
Admitting it straight-up in de open: numerous of unknown toxins  
People with respiratory problems  
People wit malignant skin lesions  
These ones responsible for that ongoing, act like we voiceless  
and leaderless  
As if we are mute and isolated  
All of a sudden right now is numerous of incidents  
When the public outcry was evaded  
They keep on acting like its nothing  
Figure it out from upwind and from downwind, which communities  
are most affected  
Drifting over whole entire villages  
Considered us neither coherent nor cohesive  
They consider us shutoff n isolated  
Consider us shutoff n disconnected  
The sickness n the symptoms are all hopeless\*  
Not even money can fill niceness Ina illness
