

Green Pastures

Midnite

Ever living Haile Selassie I Ever Present
Enoch and the host Methuselah ever in implements
Still of mystic fight academic and imperials infringement
In a the Royal Temple Mountain still as dumbfounded as in the beginning
In a cavities of the Earth catacomb magnase is blindly opening
While simultaneously the world, the podium brain-lude
His Majesty speak, listen!!!
International decorum concern the laws of human governance of spirit it is
Still relevant and unresolved
The laws of morrow with straight and thing
All the headlines reflect the most right now, what Rastaman say in'
When the established disorder is the ordering
And them a watch it like a Global warming

Intergalactic connected it is
While the Earth is living thing
Good bring thing
Keep living thing
Green thing
Green Pastures
And green thing what keep giving thing
Eco system so immense
And still so delicate
The art and the sciences of each living breathe it is
No matter who much fighting for is to holding breathing is
Bringing to Him the King, no matter how much their fighting is
The highest living breathe is living ever spin
David throne still ever locking in!!!
It was another who was lacking in bright thought within
His word show his balance as in how fillin'
Lion of the Tribe of Judah, King of Kings!!!
