

Healah

Midnite

Jah is a healah
Jah is a healah
Jah is a thunder
Fearsome and mighty
They even fear his love ah
Punishment they membah
Extremity of polarity is power struggling forevah
Mineral a caves and hot spring water
Islands of ice and a food chain slaughter
They even say how could it permit such a thing fi gwan ya
Question in a unconceivable power, well, well well, i true
Position as a grain of
Dust in the earth of many fight for distinguishing mark
And
Selassie the first is the emperor
Speak everything
Honorable the good jah made us

Jah is a healah
Jah is a healah
Jah is a thunder
Fearsome and mighty

They even fear his love ah
Punishment they membah
Extremity of polarity
Is power struggling forever

Mineral a caves and hot spring water
Islands of ice and a food chain slaughter

Sometime complexity of life frustrate us
That's when temptation of easy deliverance a snare us
Never thought of what the sequence a brought us
Sometimes no already just don't care on the surface

Quiet subtle tension that make current act nervous
Things of which the vitality of the trees should alert us

Them a spring forth fruit even for aesthetic purpose
Even pretty flower bushes burn for a purpose
A model in the muddle a go bring bout focus
Definitive respect for each in their purpose
That could mean distance how the balance of the earth is
Ayy, yay

Jah is a healah, jah is a thunder, jah is a healah

Every ruler in the earth right now inherited the mess
Tried every economic solution for the test
As the clock ticking every day, bills confess
Human consumption through temperate rest

Thought patterns pushing through material zest
Should be more whether you need healthy and bless
Economies of the countries can be fed
Righteousness

Way from in the east, reaching out to the west
Stole people who coulda been approached as a guest
Dante's inferno is the heart tempest
Just talk the thing they man restore free ness
Outta ethiopia
World outta ethiopia ya born
A healah
Jah is a ruler
Jah is a thunder
Fearsome and mighty
They even fear his love ah
Punishment they membah
Extremity of polarity is power struggling forevah
Aahhahahaha

Ayayay yay
