

Love Right

Midnite

Ah ha ah ha a

Ah ha ah ha a

Ah ha ah ha a

Ah ha ah ha a

Love right, live right, love right, live right

Yeah everything is gonna be alright

If I and I love right and I live right

Love right, live right, love right, live right

Yeah everything is gonna be alright

If I and I love right and I live right

So Rasta can't tell nobody what to think

Rasta can't force nobody to believe I

If people no want fe begin with the reality

And work their way to reach the ideal I

Our emotions are letters of urgency

We don't stop check nor bother to read

You can't search ina the pulpit nor the University

Just deal with internal scrutiny

I man a say love right, live right, love right, live right

Yeah everything is gonna be alright

If I and I love right and I live right

Time is not counted from day light

But from midnight, but from midnight

Yeah

Everything is gonna be alright

If I and I love right, and I live right

And a true

Ah ha a ha a

Ah ha a ha a

Ah ha a ha a

Ah ha a ha a

Babylon division of labor

Made every man dependent on his neighbor

Now in the hectic hostile speed of survival behavior

Man and his neighbor are stranger

So the census keep on a counting

Because they sense us accumulating

But the faster that the earth deh ya

Rotating upon the axis

The slower things appear to be moving

Hold on and

Love right, live right, love right, live right

Yeah everything is gonna be alright

If I and I love right and I live right

Time is not counted from day light

But from midnight, but from midnight

Yeah

Everything is gonna be alright

If I and I love right, and I live right

False solutions watch them coming

with their band-aid

To cover your open heart surgery

The wind don't respect limitation

The wind don't accept no man made boundary

Well in the name of the new born baby

They purpose to do their violent deeds

When them in the slaughter ya of the infants

The infantry is what them call their kill man machinery
I man say love right, live right, love right, live right
Yeah everything is gonna be alright
If I and I love right and I live right
The ancient builder is the architectural
superior to everything contemporary
an should have learned what not to emulate
Man should have learned what not to repeat
It is apparent that the oppressor's child is a parent
He don't respect land nor sea
So Wall Street is the high crime center of the earth
Not southeast Washington DC

I man say love right, live right, love right, live right
Yeah everything is gonna be alright
If I and I love right and I live right
Yes and a true
Aha aha a, hold Jah
Aha aha a, never leggo Jah
Aha aha a, hold Jah
Aha aha a
