All my feelings were gone before summer can come
I still think like a child, but we're young and dumb
I don't know what love truly is, I've become numb for once
'Cause I'm usually attached to someone I love, even though they
don't love me back
Can't change what's in the past, but that's not the present, so
let's work on that for once

And how should we go about this? 'Cause you overthink way too much

Scream and shout, girl, yeah, from the mountains, 'cause I'm in
over my head, no doubt

And how should we go about this? 'Cause you overthink way too much

Scream and shout, girl, yeah, from the mountains, 'cause I'm in
over my head, no doubt

Is, "Goodbye," so bad, or was it just the way
That I told you, "I'm done," and I still can't escape
All the arguments, calls that you throw in my face
Made it seem like my fault, think that day after day
Girl, you give me safety, but don't, man, it's strange
Say, "I love you," but manipulate my brain
Know love don't feel like love, with you, no, it's hate
Stay quiet, 'cause you just throw my truths away

And I don't, I don't, I don't wan' keep on goin'
My phone, my phone, is blowin' up, it's showin'
Out for, out for, nobody but yourself
Out for, out for, nobody but yourself

And I don't, I don't, I don't wan' keep on goin'
My phone, my phone, is blowin' up, it's showin'
Out for, out for, nobody but yourself
Out for, out for, nobody but yourself

Yeah, yeah

All my feelings were gone before summer can come
I still think like a child, but we're young and dumb
I don't know what love truly is, I've become numb for once
'Cause I'm usually attached to someone I love, even though they

Sometimes you have to go through things, it's like this notion
that iron sharpens iron. That in a-in a-in a fire, you mold iro

n together. We go through things in life that help us build our character. There isn't anything in this life that's convenient , that's easy, because if it's easy, it ain't good for you
