

## ball & chain

midwxst

I was blindsided  
My trust one-sided  
Thought we were timeless  
Now you're side-eyeing  
Without realizing  
You were bad-timing  
And our loves dying  
No, I can't fight it  
No, I

What do  
What do you need from me?  
What do, what do, (what) what do  
Why do you put this fear in me?  
What do, what do, (what) what

Try and  
Tame me  
Forever changing  
(Whoa [12x])  
Ball and  
Chain me  
Talk to me  
Baby  
(Whoa [12x])

So, I'm done trying  
No more nights crying  
No more white lying  
I can't keep prying at the small details  
And bad people  
And the needle  
You stuck in my skin

What do  
What do you need from me?  
What do, what do, (what) what do  
Why do you put this fear in me?  
What do, what do, (what) what

Try and  
Tame me  
Forever changing  
(Whoa [12x])  
Ball and  
Chain me  
Talk to me  
Baby  
(Whoa [12x])

Try and  
Tame me  
Forever changing  
(Whoa [12x])  
Ball and  
Chain me  
Talk to me

Baby  
(Whoa [12x])

I thought that we could grow  
I guess you'll do that on your own  
You made me hate to the bone  
But you'll always feel like home
