midwxst

Lights out, I can still see your face  
Right now, I need you right away  
Lights out, no, I can't escape  
Get out (You broke my shit, oh, you spat in my eye)  
Ayy, what the fu—

Girl, your beauty's your weapon  
Still got memories of seein' you undressin' (Yeah, I see it, yeah)  
Miss your imprint on me, I caressin'  
Know you'll be back, all that dug-out impression  
It take me, I told her, "Stand down"  
No, I'm not a boy no more, lil' bitch, yeah, I'm a man now  
Saw you throw my heart up on the floor  
I watch you slam down, slam down  
Wish I never fell in love in this town, this town, oh

I see the light  
You can't replace me, I'm the prototype  
Know that I'm broken, see it in my eyes  
Hate when I woke up, you weren't by my side  
Blinded by love, I was wastin' my time

Lights out, I still see your face  
Need you right now, need you right away  
And it's lights out, no, I can't escape  
Need to get out before it's too late  
Lights out, I still see your face  
Lights out, need you right away  
Lights out, no, I can't escape  
Fuck, lights out, before it's too late

I been stumblin' (Yeah)  
I can't walk straight (I can't)  
First, I'll fall in love (Oh, yeah)  
Then, it's a heartbreak (Yeah)  
Thought you were the one (The one)  
We hit that pump-fake (Yeah, that pump-fake)  
You texted me, "We're done" (We're done)  
Couldn't say it to my face (Oh, yeah)  
Is this what we'll become? (Oh, yeah)  
Is this what you think? (Oh, yeah)  
But let me hold my tongue (Oh, yeah)  
I'll say some real things (Oh, yeah)  
I know you miss my mood swings (Okay)  
Yeah, I know you miss my mood swings

I see the light  
You can't replace me, I'm the prototype  
Know that I'm broken, see it in my eyes  
Hate when I woke up, you weren't by my side  
Blinded by love, I was wastin' my time

Lights out, I still see your face  
Need you right now, need you right away  
And it's lights out, no, I can't escape  
Need to get out before it's too late  
Lights out, I still see your face

Lights out, need you right away  
Lights out, no, I can't escape  
Fuck, lights out, before it's too late
