

You left me in some misery
Put them problems right away
You're saying what? I'm too afraid
Friends keep saying that I've changed
Problems, what I run into
Do not know, I'm getting used
That's the only shit that you do
I'm tired of you

Get out of my face, bitch
Put you down in a ditch
You've been drinking lately
Running, I'm not chasing
I'm running out of patience
Sorry, did I offend?
You holding the faces around you are your new friends
I never cared for you, fighting in this past tense
I only got a couple things left, some options
Shut the fuck up, I don't wanna hear you talking
I think I'm bleeding out, think my heart is stopping
In the wrong, and you know
But you still text my phone
Broke me down to my bones
I been healing, I wanna know

You left me in some misery
Put them problems right away
You're saying what? I'm too afraid
Friends keep saying that I've changed
Problems, what I run into
Do not know, I'm getting used
That's the only shit that you do
I'm tired of you

I'm so sick and tired
No, I'm so sick and tired
Yeah, I'm so sick and tired
Yeah, I'm so sick and tired
Yeah, I'm sick and tired
Yeah, I been sick and tired
Yeah, I been sick and tired
I been sick and tired

Oo-oh, oo-oo
Oo-oh, oo-oo
Oo-oh, oo-oo
Oo-oh, oo-oo
