

## never understood

midwxst

My trust was misused, huh  
Tried to pick your brain, I still don't get you  
Take back all my words, know I regret you  
Reached a point where I don't care if I upset you  
Yeah-yeah

No-no, I never understood  
Why you portrayed me in that light when I was always good  
I'm tryna understand you motive, but I can't read your mood  
You said my intentions were bad, but yours were never good

Yeah-yeah, bet that shit facts too  
I'm tryna lower down the bridge and storm your castle  
I'm finally breakin' out of what we had, your shackles  
I'm tryna go forwards, but you always bring us back-back

Forward, then it's back, that's with every step, girl  
Tryna forget your name, but you're stuck in my head, girl  
So I play it safe, I don't wanna know your name  
I'm so tired, girl, of hurtin', I won't go through that again

Forward, then it's back, that's with every step, girl  
Tryna forget your name, but you're stuck in my head, girl  
So I play it safe, I don't wanna know your name  
I'm so tired, girl, of hurtin', I won't go through that again

Because now, I see your "red flags"  
And now you're probably wonderin' why I don't text back  
Yeah-yeah, karma's my get-back  
I'm tryna get you out my mind, it's hard to forget

'Cause your hair was blowin' in my face when I rolled down, yeah, my window  
You said that you knew me from another life, but I guess it's not that simple  
I can't cope correctly when I'm alone, that's why I drop my singles  
I'm tryna love you right and you love you best, but I know what I was in for

(Forward, then it's back)  
(Forward, then it's back-back)  
(Forward, then it's back)  
(Forward, then it's back)  
(Forward, then it's back, that's with every-)  
(That's with every s-)  
(Forward, then it's back, nah, yeah, that's with every step, girl)

Forward, then it's back, that's with every step, girl  
Tryna forget your name, but you're stuck in my head, girl  
So I play it safe, I don't wanna know your name  
I'm so tired, girl, of hurtin', I won't go through that again

Forward, then it's back, that's with every step, girl  
Tryna forget your name, but you're stuck in my head, girl  
So I play it safe, I don't wanna know your name  
I'm so tired, girl, of hurtin', I won't go through that again

(Go through that again, I can't go through that again)  
(I can't go through again, no, I, huh)

(Go through that again, I can't go through that again)  
(I don't wanna know your friends, no, I, huh-huh)
